Why choose a cloud solution?

Improve communication and performance of in-office employees, mobile workers and remote team members alike and sweep away the burdens of purchasing and maintaining hardware.

Why choose Spamina?

The first European vendor to provide secure email and instant messaging. Build a wall against major infection vectors. Protect critical corporate information and prevent governmental snooping. Spamina complies with the regulations of the European Union ensuring our customer's data remains confidential at all times.

Email retention and easy capture. Helps you maintain compliance with legal regulations.

Enhance operational effectiveness. Multilevel seamless deployment, provisioning and management console for end users, IT administrators and resellers.

Business continuity. Protects your communications while preventing eventual disruptions such as mail sever outage: should this happen, our webmail service will sort you out. Anytime, anywhere.

Google Apps & Office 365 integration. In conjunction with any of these mail services, our cloud email services take your security to the next level.

Product	Plan/Feature	Description
Parla - Secure Cloud Email	**Parla 2Gb** / **Parla 10Gb** / **Parla 30Gb**	The mailbox platform that meets your security needs. A corporate cloud solution designed to provide enterprise-class email, instant messaging, Outlook plugin, calendar and collaboration within a safe environment anywhere from any device.
ParlaMI – Enterprise Instant Messaging	**Secure Instant Messaging**	ParlaMI's sophisticated encryption system protects your conversations from any network threat or data leakage while ensuring that confidentiality is not compromised. Available for IOS & Android and via Outlook plugin, and webmail. ParlaMI can be purchased independently, or it comes included for free to any Parla customer. The following security add-ons are also available: ParlaMI IM FW (DLP & Antimalware) and ParlaMI IM Archiving.
Cloud Email Firewall	**Antispam Antivirus Antimalware Antiphishing & Business Continuity**	Spamina classifies the inbound & outbound email traffic within the categories spam/possible spam/bulk email, so that corporate email gets efficiently delivered. Email queueing in the event of server outage.
Advanced Threat Protection (ATP)	**New Sandboxing technology to detect and prevent APTs in real time**	Spamina ATP solution includes Sandboxing and Premium antivirus technology to protect your email against advanced persistent threats (ransomware, cryptolocker,) in real time.
Cloud Email Archiving	**Archiving, legally compliant solution**	Cloud Email Archiving prevents the manipulation of the email content by rendering it immutable. The email gets automatically indexed, stamped for integrity and archived. Storage capacity is virtually unlimited.
Cloud Email Encryption & DLP	**Encryption & Data Leak Prevention**	Cloud Email Encryption & DLP is a policy-based managed encryption solution. This engine not only encrypts messages based on pre-defined corporate policies, it re-directs and prevents confidential information from being distributed over the Internet to the wrong people.
